

Accordion-Folding Shower Door (EFBS##-PCCS)

This barrier-free shower door offers people with special needs safe and easy access to the Fiber-Fab shower. The door folds completely out of the way for easy access to the showering area. When the door is closed, it creates a water-tight environment, keeping the water from splashing out into the rest of your bathroom. The specially designed splash guard (shown below) creates a small dam but still allows easy rollover of a wheelchair.

Note: Slats on seat may need to be trimmed to allow for door to bypass the seat area.

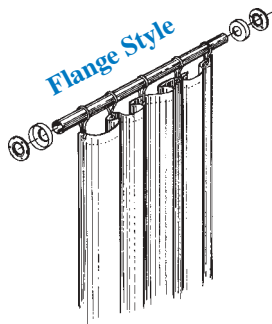

Barrier-Free Splash Guard (ESPLASHGUARD-PC)

This splash guard helps keep water in the shower, but still allows easy rollover or step on. May be used in conjunction with the accordion-folding door shown above right or with a shower curtain.

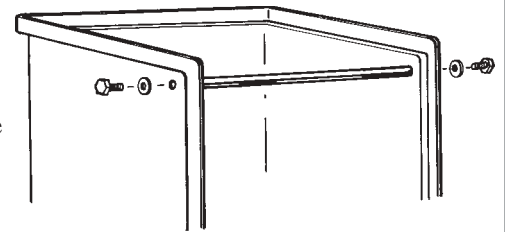

Shower Curtain, Rod and Hooks

CURTAINS are available in three styles. **VINYL (ECSVC-##WH)** Vinyl film .008 mil. White is standard, translucent or almond are special order. **FLAME-RESISTANT (ECSCFR-##WH)** Vinyl-Laminated fiberglass with flame, static, bacteria and mildew resistance.
